 www.linkedin.com/in/hemashree-b-m-03611a333

Career Objective

Motivated B.Tech Electronics and Communication Engineering student at Alliance University with interest in embedded systems, electronics design, signal processing, Arduino development, and sustainable engineering solutions. Currently learning and building practical projects using Arduino, sensors, and embedded technologies. Seeking internship opportunities to gain hands-on experience in electronics design, embedded systems, and emerging technologies.

Education

B.Tech – Electronics and Communication Engineering
Alliance College of Engineering and Design, Alliance University | 2024 – 2028
Current CGPA: 7.50

Senior Secondary (XII) – Karnataka State Board
SDC PU College, Mulbagal | 2024 | Percentage: 85.55%

Secondary (X) – Karnataka State Board
St. Anne's High School, Mulbagal | 2022 | Percentage: 77.76%

Projects

1. Smart Blind Stick using Arduino
2. Mobile Detection System using Arduino
3. Solar Water Dewatering System
4. Bluetooth Home Automation System
5. Smart Light Automation using LDR

Technical Skills

Programming: C Programming, Python Programming
Electronics: Embedded Systems, Arduino, Electronics Circuit Design, Sensor Interfacing, Signal Processing Basics
Tools: Arduino IDE, MATLAB (Basic), Tinkercad

Certifications

Embedded System Design using C Programming – Maven Silicon

Introduction to Electronics – Georgia Institute of Technology

Design Thinking Specialization – University of Virginia

Crash Course on Python – Google

DreamFlow Buildathon 2025 – Official Finisher

Deloitte Australia – Technology Job Simulation

Tata Data Visualisation Job Simulation

Activities

Participant – DreamFlow Buildathon 2025

Volunteer in technical exhibitions and engineering events

Participated in academic project exhibitions

Additional Details

Actively learning core electronics concepts and building hands-on projects to strengthen practical knowledge.
